- **Sustainability** focused

**Just.**

## OUR VALUES

We bring a solid foundation of experience working together as a team, while sharing a common purpose of **BUILDING LEGACY** by exemplifying our company values:

### CONNECTION

to our teams, industry, and communities.

### DEDICATION

to our projects, clients, and colleagues

### TRUST

us to do what's right and not what's easiest.

## OUR SERVICES

Our team's collective efforts have been the driving force behind our continued growth. We combine our depth of technical expertise with our range of services to provide an enhanced and holistic approach to all projects. We are proud to offer the following services from our **dedicated, in-house** teams:

# WHY AME?

- We pride ourselves on clear and respectful **communication** and we commit to bringing professionalism, flexibility, and integrity to all project interactions.
- We are **solution-oriented** with a philosophy of becoming partners with our clients and trade partners, with shared goals, values, and respect.
- We appreciate the importance of **designing to a budget** while creating a functional building that addresses the desired outcomes and ideals of the project.
- We believe in **robust and straightforward strategies** that address life cycle and maintenance goals.
- We recognize the crucial role that **quality assurance and quality control** play in project success.
- We think **dynamically and creatively** to continuously push the envelope to remain at the forefront of design technology, methods, and solutions.
- We are deeply invested in the **Aquatic and Recreation sector** and bring a depth of experience to every project that is not found in any other mechanical engineering firm in Canada.
