Volo™

Volo™ Soars with Fun

Smart Play® Volo™

Volo™ is a play-packed structure that soars with fun for everyone. And it's all concentrated in a compact footprint and with optional integrated shade. The inner ring is fully-connected by LSI Flexx™, our own game-changing steel reinforced cable netting material that offers kids with a range of abilities a ton of play sensations from relaxing to bouncing to climbing. From there, it's all about choosing your own adventure and there's no shortage of ways to go! We intentionally designed each event to flow to the next, creating a perpetual play loop. Fast or slow, high or low, full energy or low key, this structure invites kids to explore and create their own style of play with multiple layers of fun.

Features:

- Loaded with 20 fully connected activities to maximize play value in a compact footprint, minimizing the amount of surfacing required
- Multiple entry points and layers of play accommodate a large number of kids
- Optional integrated shade blocks UV rays and keeps kids cooler
- Models without shade available in direct bury or surface mount
- Models with shade are direct bury
- Patent pending
- Choice of ProShield®, Permalene®, polyethylene, cable, and shade fabric colors
- ADA compliant
- Steel posts

Developmental Benefits:

- Sensory—Auditory, Proprioception, Tactile, Vestibular+, Visual
- Motor Skills—Agility, Balance, Coordination, Core Body Strength, Endurance, Eye-hand Coordination, Fine Motor, Lower Body Strength, Motor Planning, Upper Body Strength
- Cognitive Skills—Problem Solving, Strategic Thinking
- Social/Emotional Skills—Cooperation, Imaginative Play, Social Skill Development

- Minimum area required
(ASTM/CSA): 46'6" x 41'8"
(14,17 m x 12,70 m)

#323659 Volo

#323661 Volo w/Shade

Volo EN

- For ages 5 to 12
- Includes E1 Slide
- Meets ASTM/CSA/EN
- Maximum fall height
ASTM and EN 86" (2,18 m);
CSA 124" (3,15 m)
- Minimum area required (EN):
48'6" x 41'11" (14,78 m x
14,78 m)

#334951 Volo EN

#334952 Volo w/Shade EN

Revolutionary LSI Flexx™ is steel-reinforced cable netting that serves as a central hub, creating a new model for playground access and inclusion.

Two Crux Climbers provide double the fun with different climbing challenges inside and out. Kids can also find some of the hidden birds nesting here.

Even hidden spaces are activated with bridges, slack lines, and hangout spots.

With 20 different activities, kids will flock to Volo over and over again.

Since 1971, Landscape Structures Inc. has been the leading manufacturer of commercial playground equipment in the world. Our employee-owned company designs community and school playgrounds that encourage kids of all ages and abilities to learn persistence, leadership, competition, bravery, support and empathy through play. We push the limits—of design, inclusion, play—to help kids realize there is no limit to what they can do today and in the future. For a better tomorrow, we play today.
